 Project Manager - Data Governance - Business Strategy

 [linkedin.com/in/faycal-njoya](https://www.linkedin.com/in/faycal-njoya)

SUMMARY

A holistic Strategic Project Manager, up to date on modern skills such as data governance, aligning quickly with current strategies and understanding stakeholders' strategies to add value efficiently to the overall structure and company projects.

EXPERIENCE

Data Quality Manager L'Oréal	05/2025 to Present
---------------------------------------	---------------------------

- Defined and implemented a comprehensive Data Quality strategy for master data across Europe, enhancing process and documentation quality.
- Led a team of Quality Analysts, fostering a collaborative environment, which improved incident management response times.
- Managed complex international data projects, ensuring consistent and accurate data syndication for key clients, including Sephora and Carrefour.

Data Governance Project Manager | RCD **11/2023 to 06/2025**

- Led the establishment of a Data Governance Department, creating a PMO that unified project management practices and improved communication across the organization.
- Implemented ITIL v4, enhancing IT department efficiency and aligning projects with business goals.
- Executed a comprehensive Data Management plan, managing SQL server warehousing and transforming data for insightful Power BI reporting to support decision-making for key stakeholders.

Data Governance Project Manager | Europ Assistance **04/2022 to 07/2023**

- Led the development and implementation of the data governance structure, aligning with Generali Group's Data Ecosystem to enhance data integration.
- Established efficient communication and reporting processes, resulting in the creation of automated control panels and a comprehensive reporting system for all Lines of Business.
- Facilitated resource distribution across departments, enabling effective data management and profitability recalculation.

Co-Founder, Head of Strategy & Operations - Program Manager | Bâtard S.L 06/2020 to 06/2023

- Co-founded Bâtard S.L., leading the strategy and operations to streamline processes and enhance organizational efficiency, resulting in a 30% increase in productivity.
- Designed the company's marketing strategy and communicated advancements to shareholders, driving a 25% growth in brand awareness.
- Implemented a comprehensive project management framework and data models, enabling real-time insights that improved decision-making and risk management practices.

Data Governance Consultant | GMA Corporate 11/2021 to 02/2022

- Led the deployment of a data management system for Asset Management, gathering and analyzing requirements to ensure all scenarios were met.
- Defined project scope, timeline, costs, and risks, while successfully training super users on Microsoft Dynamics, PowerApps, DataVerse, and PowerBI.
- Developed tailored code for specific requirements, enhancing user processes post-BI implementation and improving data governance practices.

Finance & Operations - Data Project Manager | Volvo Cars **03/2018 to 03/2020**

- Designed and implemented process models and data metrics to enhance financial reporting and risk management across the South European Clusters, improving operational transparency for the CFO.
- Monitored global car cash flow, ensuring optimal liquidity and facilitating the development of B2B O2C cash flow KPIs for EMEA markets.
- Trained operational teams on finance processes, driving performance improvements and delivering actionable insights to the directive board on operational risks.

Business Strategy Consultant | Freelance **03/2016 to 02/2020**

- Conducted thorough market research to uncover growth opportunities, increasing successful expansions for clients from India, France, Spain, and Western Africa.
- Analyzed current operations through As-Is assessments, optimizing processes, and improving efficiency across the board.
- Created customized business plans and established strategic supplier partnerships in four countries, aligning strategies with local market conditions.

IT Project Manager | Econocom 02/2017 to 02/2018

- Led multiple IT projects to enhance infrastructure and on-demand services for EMEA-based clients, achieving an improvement in service delivery.
- Developed and implemented operational processes, resulting in improved team efficiency and achieving a significant reduction in project turnaround time.
- Recruited and trained a high-performing team, successfully managing resources across various simultaneous projects to meet KPIs.

Business Strategy Consultant | Bieg **07/2015 to 03/2016**

- Collaborated on Cuatrecasas' strategic plan from 2016 to 2019, focusing on brand management and market research to enhance business performance.
- Designed and implemented the internal process structure for Generali Tower and Generali Academy, improving operational efficiency.
- Led the IT Strategic Plan for Generali Academy, presenting performance metrics to the CTO and supporting successful international expansion initiatives for multiple clients.

Data Governance & PMO | IBM 07/2012 to 06/2015

- Managed global financial reporting and risk assessments for Integrated Technology Solutions and Business Resiliency Services PMO across the EMEA region, focusing on French and German markets.
- Developed and implemented data visualization metrics using VBA and Cognos, enhancing insights for the Business Development team.
- Facilitated learning sessions on project management fundamentals and BIG DATA analytics with hands-on experience in the IBM Watson environment.

E-Invoicing – Team Coordinator & Business Analyst Jr | Multiassistance - Grupo Asistencia 12/2008 to 07/2011

- Coordinated and trained a B2B E-Invoicing team of 4 members, enhancing overall team performance.
- Assisted in developing and reporting KPIs to the COO and Office Manager, contributing to data-driven decision-making.
- Collaborated with the CFO and Accounting Manager on operational planning, leading to a successful implementation of B2B E-Invoicing processes.

EDUCATION
